How to Use Your Cards

1. **Pick a card.** Choose the job you need done today: a week of posts, a sales email, a plan.
2. **Fill in every [BRACKET].** Replace the words in brackets with your real details. The more specific you are, the better the answer.
3. **Paste it into any AI tool.** ChatGPT, Claude, Gemini, Copilot, or whichever assistant you like. The prompts work in all of them.
4. **Ask for changes.** Keep chatting: "make it shorter," "more casual," "give me 5 more," "write it for Instagram."
5. **Check it and make it yours.** Fact-check dates, prices, and claims. Edit so it sounds like you before you post or send.

Start Here: Your Business Snapshot

Paste this first, then any card.

I run [BUSINESS NAME], a [TYPE OF BUSINESS] that serves [WHO YOU SERVE] in [WHERE]. My main offer is [OFFER] at [PRICE]. My customers care most about [WHAT MATTERS TO THEM]. My brand voice is [3 WORDS]. Please keep all of this in mind for everything I ask next.

Tips for Better Results

- Give details: who your customer is, your price, your location.
- Ask for options ("give me 5") and pick the best one.
- Never paste passwords, card numbers, or private customer data.
- AI can be wrong. Double-check facts, dates, and prices.
- Save the answers you love in one document to reuse.

Printing Tips

- Paper: US Letter cardstock (65–110 lb) or plain paper.
- Print at 100% / "Actual size," one-sided. A4 paper: choose "Fit to page."
- Print one test page on plain paper first.
- Cut on the dashed lines. Each card is 4.25 × 5.5 in.
- Store them in a 5×8 index-card box or punch a corner and add a ring.

Prefer a screen? Use the Screen PDF on your phone or tablet: one card per page, easy to copy.

I run [TYPE OF BUSINESS] in [CITY OR "ONLINE"]. I sell [PRODUCT OR SERVICE] for [PRICE RANGE]. Finish with a one-sentence summary I can keep on my desk.

Tip: *Save the answer and paste it at the top of future chats so every result fits your customer.*
